

Our school made the decision 12 months ago to bring in Jocelyn and her skills after she was recommended by another school, THANK GOD WE DID, we have gone in 12 months from a tuckshop that was just covering its costs to one now making money and with 2 paid full time staff members and 1 casual, we have grown that much.

We used to buy everything in, we never made anything because that's what the previous convener did and we just followed, we now make 90% of what we sell and our sales have gone through the roof and all at Jocelyn's recommendations and recipes, what a turn around.

We have gone from only being open 4 days a week to 5 (very busy) days, hence the staff we now have.

We really do owe Jocelyn an extremely big thank you for helping us move out of the dark ages and into the 21st Century and I would highly recommend ANYONE if you're not making the money you think you should and you realize you may need help that this is one lady that really knows what she's talking about, not only does she come out to your school and work alongside your staff but is also contactable by phone, so she's never that far away, she is a school tuckshop angel.

Thanks Jocelyn
