

We had Jocelyn come into our tuck shop and do a review of our business. We found her to be a very professional and knowledgeable of all aspects of tuck shop operations.

When we got our report through we found it to be comprehensive and very helpful, as included in the report were solutions to the problems we were facing.

Jocelyn showed us some very simple and effective ways to increase profitability and also practical ways to encourage volunteers into the tuck shop

After our first month of implementing the changes recommended to us by Jocelyn our profits have already increased 6.5%!

Thanks,
