To Whom it may concern,

Jocelyn Ashcroft has recently completed an audit of both our Junior and High School Canteens. Been a relatively new Prep-12 school we have struggled to find our feet with the operation of our canteens. Jocelyn has provided excellent support and reference materials for our Canteens.

Jocelyn is a very approachable and professional person who has vast experience in school Canteens. The assistance and report that she provides was very concise and invaluable for the growth and success of our Canteens.

We would recommend her services to anyone requiring assistance in this field.
