

May 2012

Jocelyn,

Can I firstly just say thank you for bringing your expertise in the area of School Canteens to our school.

I was personally of the opinion that the canteen was an area of the school that would almost self manage with the right convener, "was I wrong".

After having you here for two days I have a new-found wealth of knowledge that allows me to understand our schools obligations with regards to Food Safety, WHS, engaging volunteers, and pricing for profitability. (Or at least breaking even).

I felt very comfortable discussing any aspects of the Canteen management with you and felt at ease with your recommendations due to your unwavering professionalism.

I would and will recommend you to any other school who has a canteen.

Once again Thanks.
